

One Tiny Win

A 10-second micro-start for one visible next action.

Try the feel before buying

This sample gives you one useful micro-start now. The existing \$3 mini adds the complete 90-second routine, a Tiny Step Sizer, seven-use tracker and pocket card.

No account required

Download, save or print this sample for personal use. There is no subscription and no promise of a particular result.

Begin on page 2

Keep breathing natural. Skip anything uncomfortable and use the exercise only while safely stationary.

Your 10-second micro-start

You do not need to feel ready. Make the next moment slightly easier to enter.

1 | Drop

Set down what you can. Let your shoulders soften if comfortable.

2 | Feel

Notice one point where your body is supported.

3 | Name

Say one visible action you can begin next, or deliberately choose rest.

For the next three minutes, I will:

Begin when it suits you. If the step still feels too large, make it smaller.

[Get the complete 90-second routine and reusable tools \(\\$3\).](#)

A general-wellness worksheet, not treatment or a promise of a particular result. Use only while safely stationary. Skip any step that feels uncomfortable; breathe naturally and stop if dizzy. You may use a visual or touch cue instead of a breathing cue.
